

Front-end Developer

Seoul, South Korea | haanna.com | anna@haanna.com

Creative, meticulous and highly motivated front-end developer with a goal to make engaging and practical user experiences. Very passionate about accessibility, aesthetics and UI.

SKILLS

HTML	CSS	JavaScript	React	SASS	Bootstrap	Tailwind CSS	Git&Github	Responsive Design
UX/UI	Illustrator	Photoshop	Figma					

PROJECTS

TRAVEL JOURNAL

HTML CSS React

Travel Journal is an app that displays information about the places that I have visited in the past. It can store countless memories and displays information about locations, links to Google Maps, dates and photos. It is fully responsive and accessible so it can be viewed by anyone, anywhere, and on any device.

MOVIE WATCHLIST

HTML CSS JavaScript API

Movie Watchlist is a searchable database of popular movies and tv shows. Users can look for a title that interests them, read about it and add it to a watchlist. Added movies will be stored in user's local storage until they decide to remove it.

EXPERIENCE

STUDIO SISEON

Manager | Jul 2018 - Oct 2020

- Acted as senior liaison between Studio Siseon and the client, always ensuring that all contract requirements were met with complete customer satisfaction.
- Prepared materials for documentary interviews and provided translation services for foreign film crews.
- One of my key accomplishments is working as a translator (English to Polish) of a video "Peace and Prosperity on the Korean Peninsula - The Audacious Journey" for the Embassy of the Republic of Korea in Poland.

GREEN CAFE NERO

Shift Manager/Barista | Apr 2017 - Apr 2018

- Managed and led staff of two to three baristas while ensuring the highest quality of service.
- Effectively handled customer complaints and special requests, educated customers about the differences in coffee beans, drinks and Company's standards.
- Maintained inventory levels to ensure product availability and reduced the amount of expired products which resulted in lowering the Coffee Shop's expenses.
