

HA ANNA

Front-end Developer

Seoul, South Korea | haanna.com | anna@haanna.com

Creative, meticulous and highly motivated front-end developer with a goal to make engaging and practical user experiences. Very passionate about accessibility, aesthetics and UI.

SKILLS

PROJECTS

PHOTOGRAPHER'S PORTFOLIO PAGE [<https://portfolio-hyj.vercel.app/>]

React CSS React Router NPM SEO

Commission. The goal was to create a webpage that allows to view the images comfortably and get to know the artist. Build with React + JS and mobile-first approach, routing created with React Router. All images were encoded with either mozjpeg or turned into webp for a faster load, npms were used for image carousel and masonry layout.

QUIZZICAL [<https://react-quizzical.vercel.app/>]

React CSS API

Quizzical is a single-page application that uses the Open Trivia Database API to fetch and render ten questions, with four possible answers each. The user can choose the question set from various categories (General Knowledge, Entertainment, Science, Animals, etc.) and difficulty levels (mix, easy, medium, difficult). At the end of the quiz, answers are checked, correct and wrong answers are displayed, and the points are counted.

EXPERIENCE

FRONT-END DEVELOPER (FREELANCER)

Developer | December 2022 - Now

- Building webpages for private clients.
- Managing workflow, keeping in touch with clients
